## SELLING TIPS:

### 1. Facebook Marketplace:

Do some research on the price of similar items, take some good photos and upload them to the item listing, and be willing to negotiate

### 2. NextDoor:

NextDoor is a free app that uses your location to help connect you to people in your neighborhood. Follow the same protocols as Facebook Marketplace

### 3. Auction:

Local options include Clars in Oakland ([www.clars.com](http://www.clars.com) / Deric Torres) or Michaans in Alameda ([www.michaans.com](http://www.michaans.com)) - check out the website tabs that describe what they take and what their process is for live or online auctions

### 4. Consignment:

There are quite a few of these around. Just be sure you understand the terms of the shop, such as what percent they keep upon sale and the length of their contract with you

*NOTE: If you think an item that you own is truly valuable, you may wish to seek a paid consultation from a Certified Appraiser registered with the American Society of Appraisers ([www.asanorcal.org](http://www.asanorcal.org))*
